

PRESENTATION TOPICS

Air Quality	<p><i>Central Florida's Air Quality</i> Focuses on the current level of air quality in our community and offers methods that individuals and businesses can use to improve our Air Quality Index rating.</p>
Bicycle and Pedestrian	<p><i>Challenges for Bicyclists and Pedestrians</i> Explores the unique issues that confront bicyclists and pedestrians and offers potential solutions to dangerous problems.</p>
	<p><i>Transportation Planning for Bicyclists and Pedestrians</i> Explains the considerations given to bicyclists and pedestrians when transportation plans are made and explains how decisions are made.</p>
	<p><i>Using Your Legs to Get Around</i> Discusses the benefits and practicability of walking and cycling as forms of transportation.</p>
	<p><i>Learning to Cycle Safely and Properly</i> Educates cyclists about safe cycling practices and discusses rules of the road.</p>
Freight	<p><i>Freight Movement in the Orlando Area</i> Everything we eat, drink, wear, drive or build comes to us by road, rail, air or water. The movement of freight, goods and services has a tremendous impact on Central Florida's economy, which is why METROPLAN ORLANDO incorporates freight mobility into its long-range transportation plans.</p>
Funding	<p><i>Transportation Financing</i> Identifies transportation funding sources and examines the factors contributing to financial allocations.</p>
Project Specific	<p><i>Central Florida Commuter Rail Project</i> Explains the Commuter Rail project which will run through Volusia, Seminole, Orange and Osceola Counties and provides an update on its status.</p>
Public Affairs	<p><i>Communications within a Government Organization</i> Analyzes the aspects of communications within a government organization and discusses its role in implementing and achieving objectives.</p>
	<p><i>The Role of Legislative Affairs in Transportation</i> Explores the significant impact legislation has on transportation decisions.</p>

Public Involvement	<i>How do you get around when you can't drive?</i>
	Most of us take our mobility for granted. But for some, transportation is a major obstacle to overcome. This presentation outlines how paratransit service in Central Florida operates.
Regional Transportation Planning	<i>Involving the Public</i>
	Discusses the variety of public outreach efforts of METROPLAN ORLANDO.
	<i>Overview of METROPLAN ORLANDO</i>
	Gives a brief history of METROPLAN ORLANDO and analyzes its role as the transportation planning organization for Orange, Osceola and Seminole Counties.
	<i>Working Together: The Central Florida MPO Alliance (CFMPOA)</i>
	Examines the role of the alliance of metropolitan planning organizations and discusses its commitment to addressing regional transportation challenges.
	<i>Transportation Planning for the Orlando Area</i>
Discusses the components of establishing and implementing transportation plans.	
<i>Long Range Transportation Plans</i>	
Reviews METROPLAN ORLANDO's 20 year plan which addresses the region's current and projected needs and serves as a guide for future transportation projects.	
<i>The Transportation Decision-Making Process</i>	
Explains how decisions are made regarding transportation planning.	
<i>Recent Activities of the METROPLAN ORLANDO Board</i>	
Summarizes the actions and decisions of the METROPLAN ORLANDO Board—which consists of elected officials from the tri-county area and regional transportation agencies. The Board is ultimately responsible for implementing the transportation planning process within the Orlando Urban Area.	
Safety	<i>Improving Traffic Safety in Central Florida</i>
	Discusses actions that are being taken to make Orlando area roads safer for motorists, pedestrians and bicyclists.
<i>WORST FIRST: Regional Traffic Safety Solutions</i>	
Analyzes the ten worst behaviors for motorists, pedestrians and bicyclists, as well as the ten most dangerous roadways. Also explores ways to resolve dangerous traffic situations.	
Technology and Transportation	<i>Improving Transportation with Technology</i>
	Explores the ways in which computer and communication technology are being used to manage roadways more effectively.
<i>Effective Traffic Incident Management</i>	
Offers tips for managing traffic crashes and discusses the importance of clearing incidents from roadways as quickly as possible. Also discusses the Move It...Yes You Can! campaign.
